DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SAFE WELL BEFORE USE:

DO NOT MIX WITH OR ADD TO ANY OTHER CHEMICALS OR SUBSTANCES;
NEVER USE DIRECTLY ON PLANTS.

Do not inhale or get this product into your eyes, mouth, or on your skin. Do not allow children to have access to or play with or around this product. Keep out of reach of children. Do not allow children to play with the sprayer or application equipment. Do not contaminate water, wells, ponds, or any other water source.

Preparation: Begin by removing livestock from treated areas and setting up a work area for preparation of the product. Shake well before use.

Spraying: Before applying, read the label before use. Stop the application and do not re-enter until the treated area is dry. Do not apply in classrooms, hospital and/or nursing home rooms, food/feed areas of food and feed handling operations, or in or near food storage or preparation facilities. Follow the directions for use, precautions, and restrictions provided on the label.

GENERAL USE:

Consider the presence of potential non-target species including birds, mammals, aquatic species, and predators. Target pests should be avoided if possible. The use of any pesticide may have an impact on non-target species.

Bed bugs: Spray bed bugs and eggs directly wherever possible. This product is effective on all life stages of bed bugs. This product controls bed bugs that are directly treated and young nymphs that are emerging from eggs. This product is effective in cracks and crevices. Do not apply in classrooms, hospital and/or nursing home rooms, food/feed areas of food and feed handling operations, or in or near food storage or preparation facilities. Follow the directions for use, precautions, and restrictions provided on the label.

Spiders: Apply directly to webs, cracks, and crevices. Do not apply in classrooms, hospital and/or nursing home rooms, food/feed areas of food and feed handling operations, or in or near food storage or preparation facilities. Follow the directions for use, precautions, and restrictions provided on the label.

Insects: Apply directly and liberally to cracks, crevices, and corners. Apply as a spot treatment only to infested areas. Follow the directions for use, precautions, and restrictions provided on the label.

When to apply: Apply when pests are present. Repetitive treatments may be necessary for complete control. Do not exceed the maximum use rate for any one application. For best results, apply the product at the beginning of an infestation. Follow the directions for use, precautions, and restrictions provided on the label.

Storage and Disposal:

Store the product in its original package in an area protected from direct sunlight and heat. Keep out of reach of children. Do not contaminate water, wells, ponds, or any other water source.
