Multiple Food Attractants • For Indoor, Outdoor and Turf Use

Starts Killing in 1 Hour • Kills the Colony

Active Ingredient: Imidacloprid...........0.5%
Other Ingredients: .........................99.5%
Total:...........................................100.0%

EPA Reg. No.: 73079-14
EPA Est. No.: 73079-MO-1
Net Weight: 8 oz, 4 lbs, 25 lbs

This pesticide is highly toxic to birds and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Personal Protective Equipment (PPE)

There are no specific requirements for applicators or other handlers, however, the following is recommended at a minimum:

-Short-sleeved shirt and long pants
-Shoulder-sleeved shirt and long pants
-Shoes plus socks

Application tips for certain sites follow:

1. In attics, be sure to get bait near the eaves and vent pipes where insects often first enter; as well as around any pipes or potential access points between the attic and the main structure. Ants should have proper ventilation to insure that no food odor from the bait seeps into the living area, particularly in hot weather. If in doubt, apply the product in a manner such that it can be easily removed.
2. When treating cabinets, if there is no gap between the lower cabinets and the kickplate, then small holes can be drilled to access the voids. Escutcheon plates around pipes can also be pulled back to allow access to voids.
3. The bottom drawers in kitchen and bathroom cabinets can be removed and bait dusted into drawers. No bait should be left exposed when drawers are replaced. 4. Electrical switch plate covers can be removed to allow access to voids, but bait should not be applied directly in electrical boxes.
5. If there are cracks between baseboards, cabinets, doorframes, hinges, counters or trim, and walls, these cracks can be lightly dusted with bait. If practical, these areas can be sealed once insect problems have been eliminated, to help prevent future problems.
6. Insects need moisture, so kitchen and bath areas and areas immediately surrounding them, and any other damp areas should be carefully inspected and treated if necessary. As a separate matter from the use of this product, as part of an IPM program, it is advisable to fix any leaks to minimize structural damage and odors, and to prevent potential chronic insect problems.

Food Processing and Handling Establishments, Including Federally-Inspected Food Plants:

In food areas, including serving areas while the establishment is in operation, only apply bait in cracks, crevices, and other inaccessible areas, or in tamper-resistant bait stations. Never apply bait directly to a surface where food is stored, prepared or served. Follow above directions for crack and crevice placement.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a dry place. Do not store where children or animals may gain access.

For 25 lb containers:

Container Handling: Non-refillable container. If empty: Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.

For 8 oz and 4 lb containers:

Container Handling: This storage/applicator container may be refilled by the end-user of the product. Do not refill with anything other than InVict Xpress Granular Bait. Do not reuse this container for anything other than InVict Xpress Granular Bait. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP which is managed as a public-private partnership.

Warranty Limitations and Disclaimer

To the extent consistent with applicable law, seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material in the condition sold and assumes all risk of storage and handling except when used or handled in accordance with this label. To the extent consistent with applicable law, there are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically noted herein. To the extent consistent with applicable law, manufacturer shall not be liable for any consequential damages based on the use of the product.

Hazard to Humans and Domestic Animals: CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID

IF IN EYES: -Hold eye open and rinse slowly and gently with water for 15-20 minutes.
-Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
-Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 800 858 7378 for emergency medical treatment information.
